

Building a Toronto that Moves **Municipal Candidates 2014 Survey Questions**

Walking

1. Do you support enabling neighbourhoods to establish “slow zones” (with a maximum speed of 30 km/hr) on residential roads?
2. Do you support permanently widening sidewalks with high pedestrian activity in downtown Toronto, such as Yonge Street?
3. Do you support extending snow clearing to all residential sidewalks in Toronto at an estimated cost of \$10M per year?
4. Will you work with the Toronto area school boards to develop and implement School Travel Plans that will improve the safety and integrity of school walking routes?

Cycling

1. Do you support building a Minimum Grid of 100 km of protected bike lanes on main streets and 100 km of bicycle boulevards on residential streets across Toronto by 2018?
2. Do you support creating 100 new on-street parking corrals across Toronto?
3. Do you support connecting major transit hubs in North York, Scarborough and Etobicoke with protected bike lanes and bicycle boulevards enabling Torontonians to bike to transit as part of their commute?
4. Do you support the inclusion of a Complete Streets policy into Toronto’s new Official Plan as part of the current Five Year Official Plan Review?

Transit

1. Will you agree to a fare freeze for 4 years?
2. Will you agree to improving service levels every year, beyond keeping up with increased ridership?
3. Will you provide fare reduction for those in financial need?
4. Will you stop any attempts to privatize existing TTC operations?
